

Feature Kit - makes the water sparkle

Does your water feature constantly produce green water and unsightly algae formations? FEATURE-KIT is the answer. The fantastic quick action of FEATURE-KIT starts to work immediately creating a sparkling algae free water feature.

Used as directed, FEATURE-KIT tablets are ideal to use in all types of water features, self-contained fountains, tubs and cascades etc. Can be used either indoors or outdoors and creates no problem in visiting birds and animals that may drink the water.

Please read full instructions carefully before use.

INSTRUCTIONS

For water features containing approximately 1 to 5 gallons (4.54 to 22.7 litres) of water, place one tablet in the water and allow it to stand overnight.

The following morning, switch on the pump (if applicable) and circulate the water.

Repeat every 10 – 14 days as necessary.

For water features containing 5 to 20 gallons (22.7 to 90.8 litres) of water repeat as above but using two tablets instead of just one.

For best results, ensure the water level in the feature completely covers the algae growth area.

NOT TO BE USED IN WATER FEATURES CONTAINING FISH OR PLANTS

✖ IRRITANT

Irritating to the eyes and respiratory system.

Harmful if swallowed.

Contact With Eyes: Rinse well with plenty of clean water. In the event of problems always seek medical advice taking the package with you.

PRECAUTIONS

- Wash hands after use.
- Keep tablets in a safe place out of the reach of children.
- Keep this product in its original container.
- Do not mix with other products. Contact with acid liberates chlorine gas.
