

## *Goodbye Blanket Weed*

Nishikoi Goodbye Blanket Weed is a tried and trusted treatment against blanket weed (string algae). 100% natural containing a unique blend of beneficial bacteria, enzymes, and activated barley straw with no chemicals makes the product safe in all ornamental ponds, and the water-soluble sachet dosing system means there is no messy measuring to do.

Add to the pond weekly during the summer for algae regrowth prevention.

Each sachet treats 1000 gallons/4500 litres. Available in three carton sizes for ponds up to 32,000 gallons/145,000 litres, 10,000 gallon (45,500 litres) pond volume - 32,000 gallons (145,600 litres) pond volume.
